NEWS RELEASE

For Immediate Release
Contact: Mike Robinson 416-294-6165

Expanding on their already robust line of Retro Guitars, Eastwood Guitars has released the newest addition to the family, the AIRLINE. Once again Eastwood has managed to deliver out-of-this-world 1960's opulence with modern quality, features, and oh-so-Retro style! We proudly introduce the Eastwood AIRLINE.

The AIRLINE is available in two models – a faithful 2 pickup version with trapeze tail – and an elegant 3 pickup model with tremolo tail. The ingenious design incorporates a two piece hollow body laminate – similar to the 1960's Res-O-Glas models – but utilizes Nyato Wood for a more substantial and durable guitar. The result offers the resonance of Res-O-Glas but the resilience of modern designs in a perfectly balanced guitar. Additional features include a rock maple neck, bound rosewood fingerboard with a 25 1/2" scale neck. Vintage style tuners and covered Humbucker pickups – each with their own volume and tone control - round out the AIRLINE.

In addition to the stunning "White Stripes" color scheme, Eastwood is offering both models in a wide variety of colors and pickguard combinations. In addition to basic colors – White, Black, Red and Sunburst – it is also available in Seafoam Green, Seafoam Blue, TEISCO Teal, Blue Sparkle and Gold Sparkle.

Two special introductory LIMITED EDITION models are available – White Stripes and J.B. Hutto - featuring NOS Airline knobs, Airline LOGO, Alnico HOT-10 pickups, custom reproduction tailpiece and hard-shell case. Only \$200 EXTRA.

MSRP \$799 2 Pickup model

MSRP \$899 3 Pickup Model
